

### Future Community Partners

The federal partners now are extending the initiative's reach to additional areas, through distribution of this marketing kit, an enhanced website and a new web-based "community of interest/practice" for knowledge sharing.

Please visit our website, located at [www.italladdsup.gov](http://www.italladdsup.gov), which has an enhanced and improved download center of *It All Adds Up* materials. And please join the *It All Adds Up to Cleaner Air* knowledge exchange, which has areas for discussions on media and public relations, marketing materials, coalition building and funding. It can be accessed from the website's home page or at <http://knowledge.fhwa.dot.gov/cops/italladdsup.nsf/home>.

We hope that you will take advantage of customizing the free materials we have to offer and that you will benefit from sharing information with the extensive network of transportation and air quality outreach specialists across the country who are wrestling with the same issues as you.
